### Pastor's Reference

Greetings Pastor:

One of your congregants is intending to enroll at Grace Christian School. It is our desire to work together with the home and church in the development of this child.

In the Parent/Student Handbook (page 7) is the parental agreement that the student is attending the church of their choice. We desire to partner with you in this agreement. We are asking that you verify that the student attends your church. Thank you for assisting us in following up with the important with policy.
